PLAN. CHECK. ASK. TRACK.

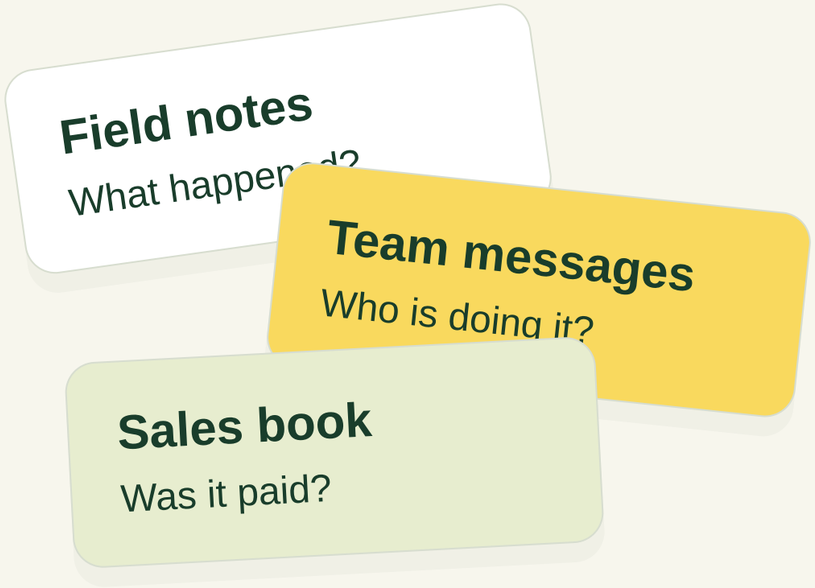

Smart AI farming.
Made simple.

Plan your farm. Check your crops.
Ask AI. Track your sales.

One app for everyday farm work.

Less chasing.
More farming.

→

ONE PLACE FOR FARM WORK

Plan. Do. Record.

Farm · Team · Stock · Money

The work and its records,
in the same place.

Four ways to manage your daily farm work.

01

Grow & care

Seasons, plots
and animal records.

02

Today’s jobs

Assign tasks.
See who’s doing what.

03

Harvest & sell

Stock, sales
and your farm shop.

04

Money

Income, expenses
and season totals.

Plan the season. See the next job.

Keep plot plans, schedules and animal records together.

Know what to do next.

Record
What you observed

Keep feeding, health and breeding records for your animals.

Give every job a clear owner.

See who's doing the job, when it's due and what they used.

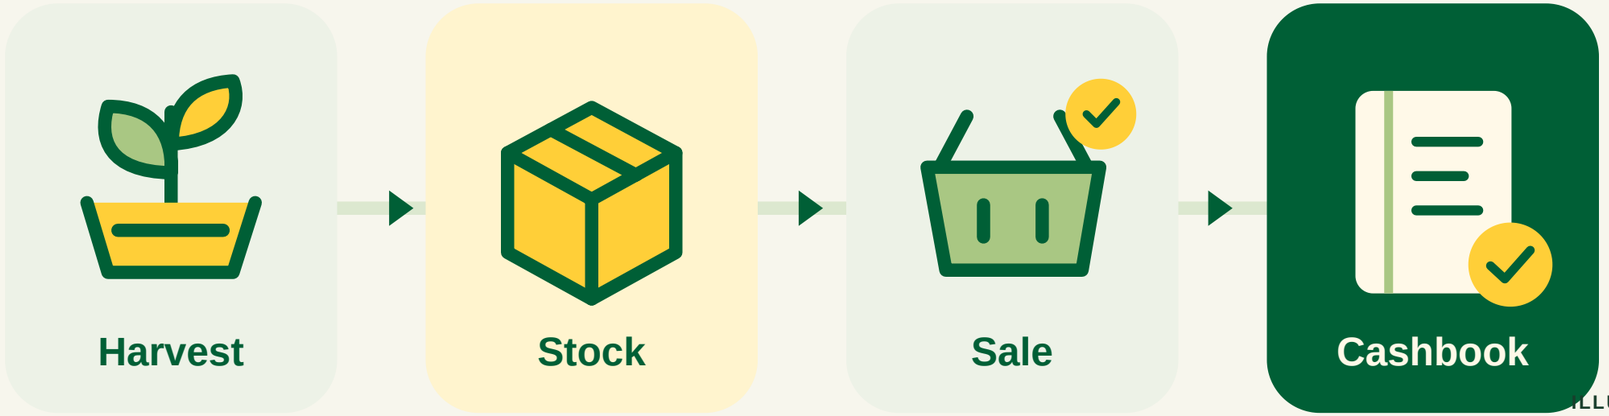

ILLUSTRATIVE TASK BOARD · SAMPLE PEOPLE & JOBS

See what got done.

Assign jobs.
Record supplies used.
Set team permissions.

Track your harvest from stock to sale.

ILLUSTRATIVE HARVEST AND SALE

01 **Harvest → stock**

Record what came in.

02 **Confirm paid sale**

Stock goes out once.

03 **Cashbook updated**

The sale adds income.

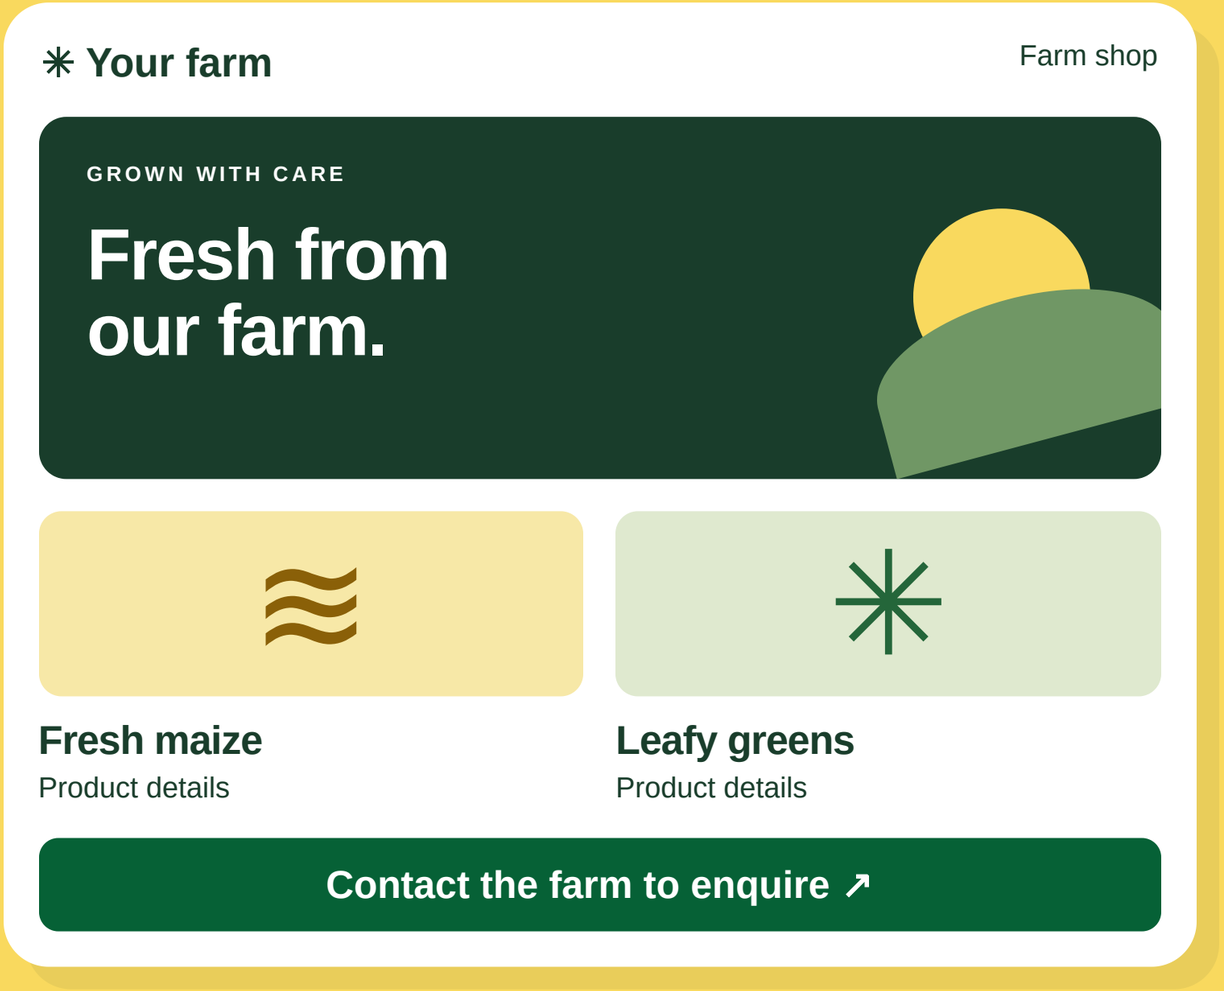

One confirmed cash sale. Stock and income recorded together.

Your farm becomes your shop.

Show your products.
Let buyers contact you.

Enquiries, not online checkout.

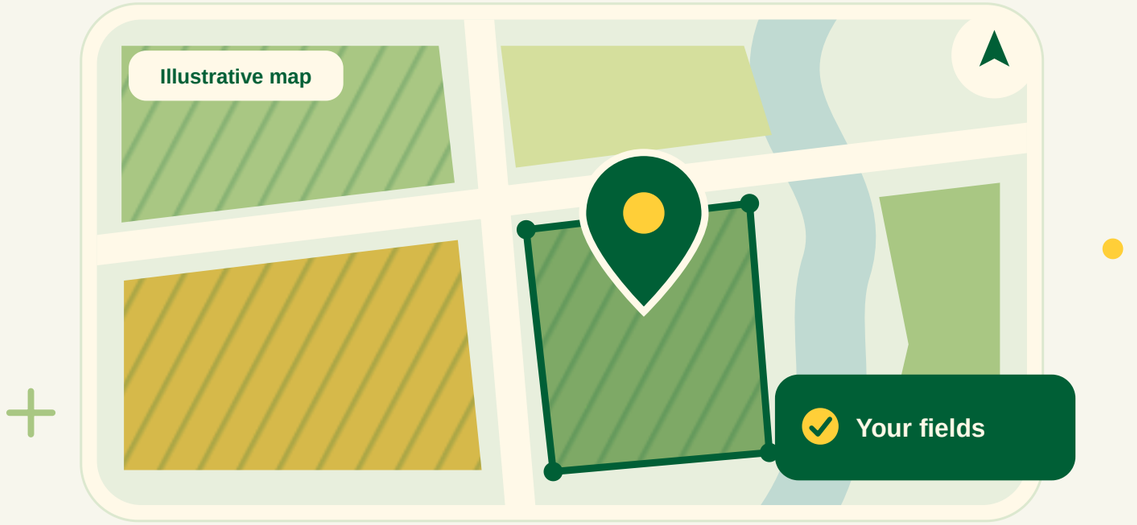

ILLUSTRATIVE STOREFRONT · SAMPLE PRODUCTS

A clearer view of your area.

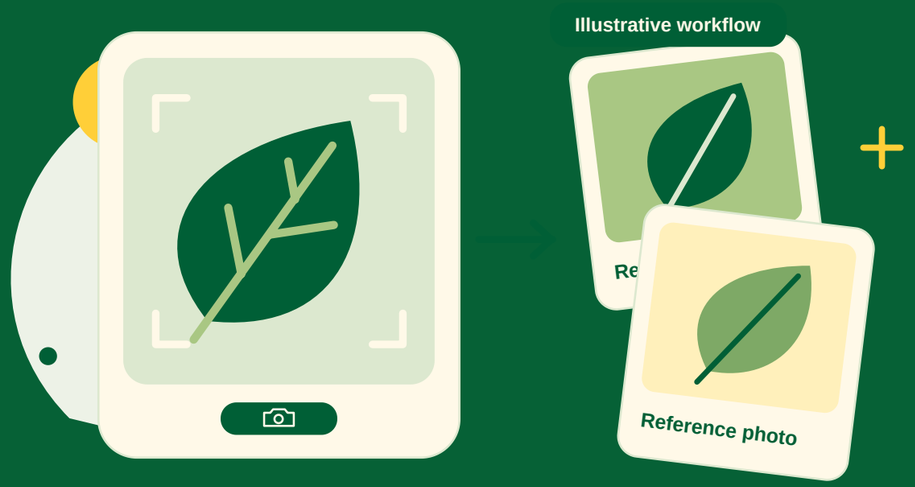

Check roads, satellite pictures and weather forecasts.

Road | Satellite | Forecast

ILLUSTRATIVE AREA VIEW · NOT LIVE MAP DATA

Maps do not diagnose crop disease. Check image dates. Clouds and detail can vary.

ILLUSTRATIVE SCAN · NOT AN ACTUAL RESULT

Check your plants. Spot possible disease.

Identify a plant. Check a crop photo.
Compare pictures of possible matches.

Plant identification

Crop disease checks

Possible matches, not a diagnosis.
