FARMBUDDY

Smart AI Farming Management System

- AI farm assistant
- Plant & crop disease checks
- Crop & animal planning
- Tasks & team management
- Inventory, sales & bookkeeping
- Maps & weather forecasts
- Farm shop & e-commerce — Buyer enquiries, not checkout

Plan · Scan · Manage · Sell

THE HARDEST CHALLENGE

A crop is at risk. What do you do next?

Decide what to check, who should act and which supplies are available, while keeping the rest of the farm running.

One urgent decision.
Too many disconnected records.

INFORMATION

No single picture

Crop history, stock and sales sit in separate records.

COORDINATION

Who acts next?

Urgent work needs a clear owner, deadline and follow-up.

CROP HEALTH

Uncertain warning signs

A plant photo raises questions. Farmers still need guidance and expert judgement.

LIVELIHOOD

Keep the business moving

Track harvests, reach buyers and record sales while managing field problems.

ONE CONNECTED FARM WORKSPACE

Plan. Check. Sell. With FarmBuddy.

Connected management & AI

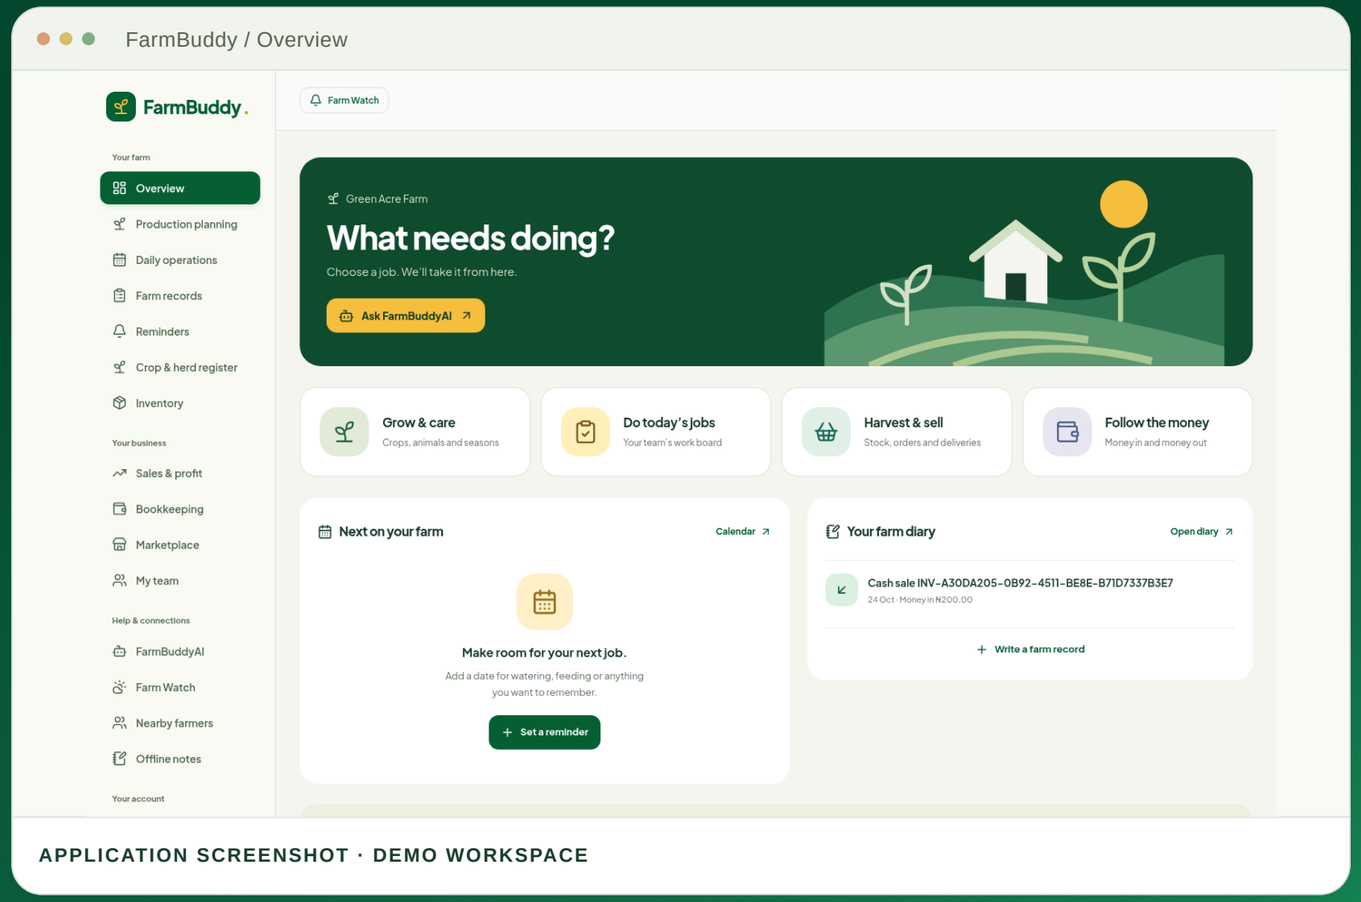

Keep plans, tasks, stock and sales together. Ask your AI Farm Buddy for guidance by text or voice, with selected farm records for context.

Plant & crop checks

Scan plant photos to identify a plant, explore possible disease matches and compare reference images. Suggestions, not a diagnosis.

E-commerce & your farm shop

List your products on FarmBuddy and share your shop link. Buyers browse your products and contact you directly to arrange a sale.

GROW WITH A PLAN

Plan the season. See the next job.

Keep plot plans, schedules and animal records together.

- Crop seasons
- Animal records
- Dated events

Know what to do next.

APPLICATION SCREENSHOT · DEMO WORKSPACE

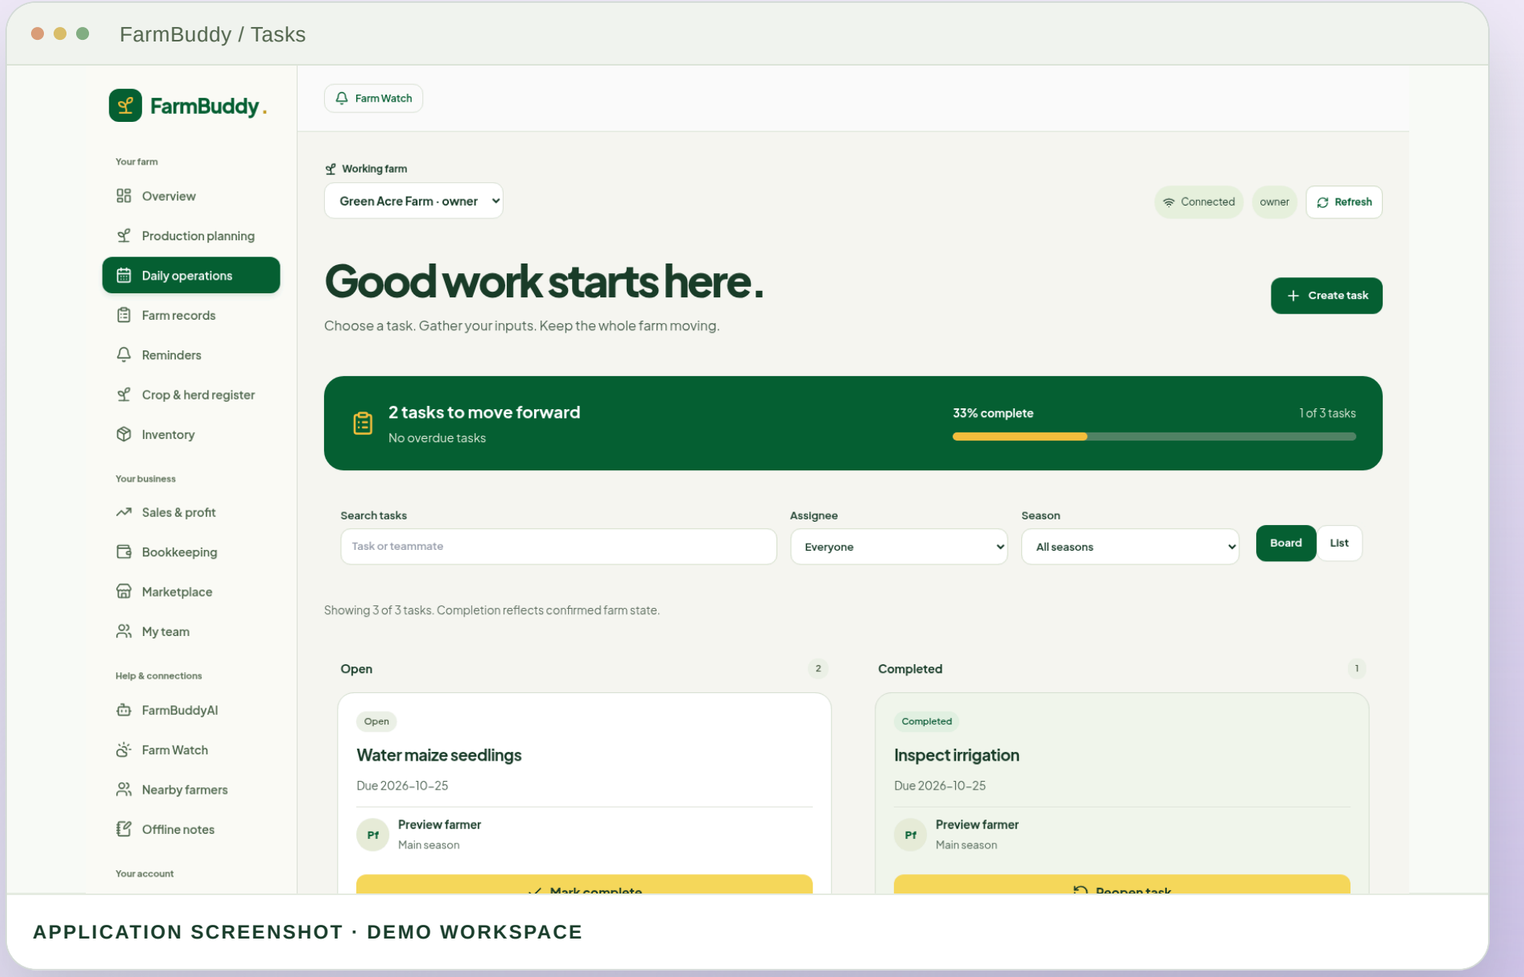

RIGHT TASK. CLEAR OWNER.

Give every job a clear owner.

See who's doing the job,
when it's due and what they used.

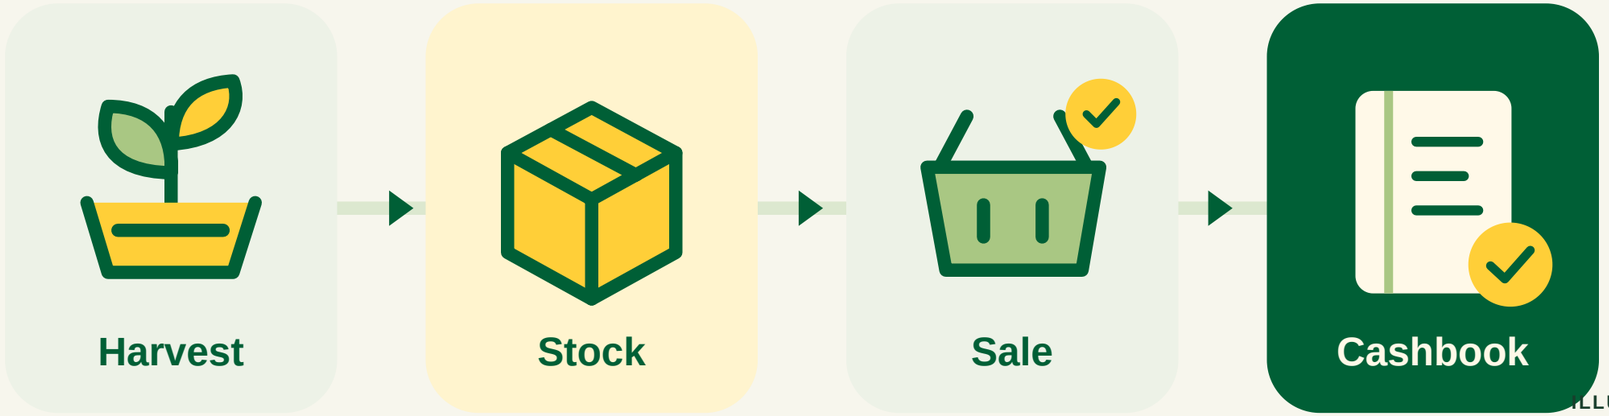

- Assignments
- Supplies used
- Team permissions

See what got done.

Track your harvest from stock to sale.

ILLUSTRATIVE HARVEST AND SALE

01 **Harvest → stock**

Record what came in.

02 **Confirm paid sale**

Stock goes out once.

03 **Cashbook updated**

The sale adds income.

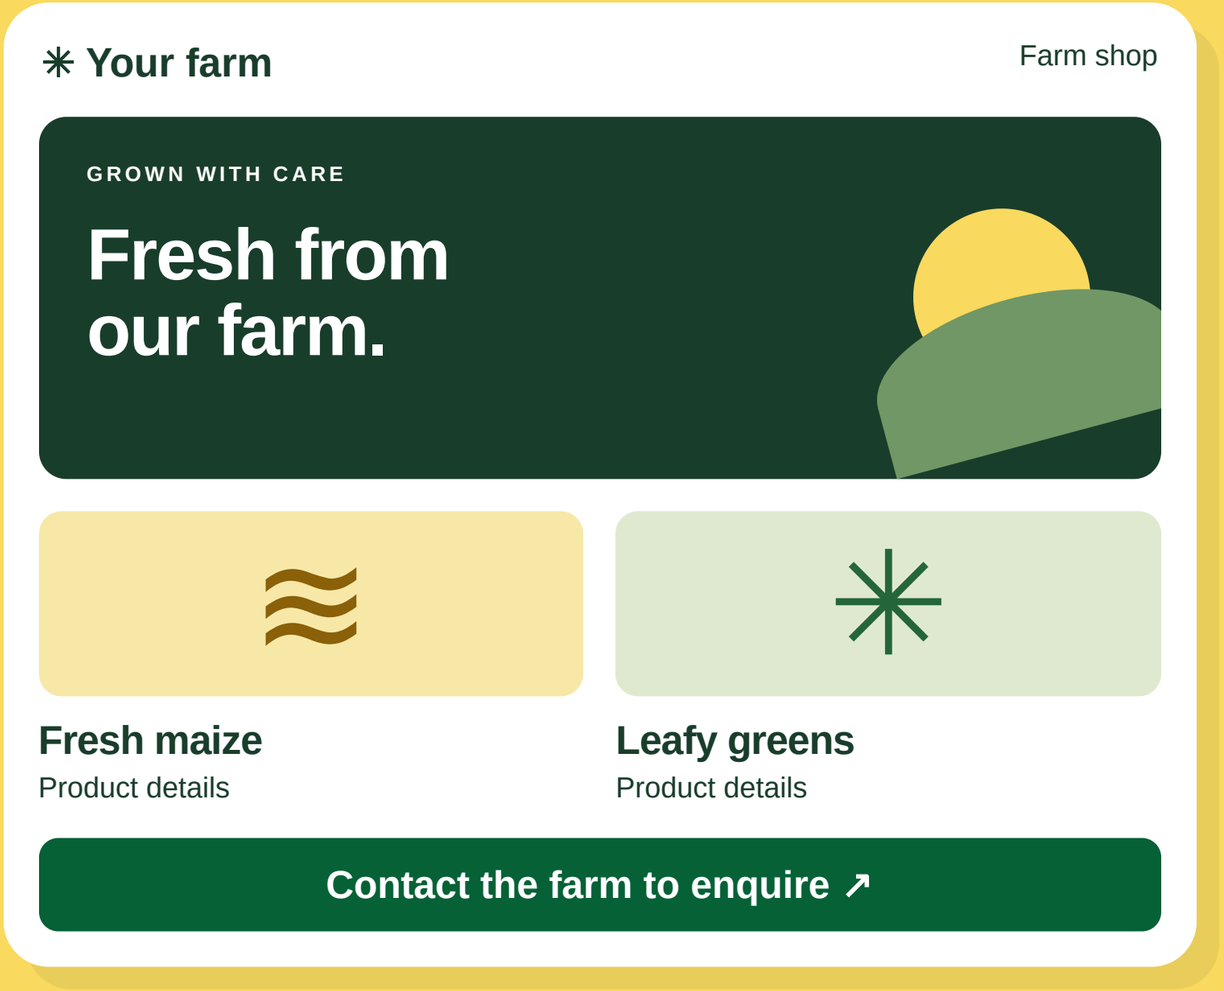

One confirmed cash sale. Stock and income recorded together.

Your farm becomes your shop.

Show your products.
Let buyers contact you.

Enquiries, not online checkout.

ILLUSTRATIVE STOREFRONT · SAMPLE PRODUCTS

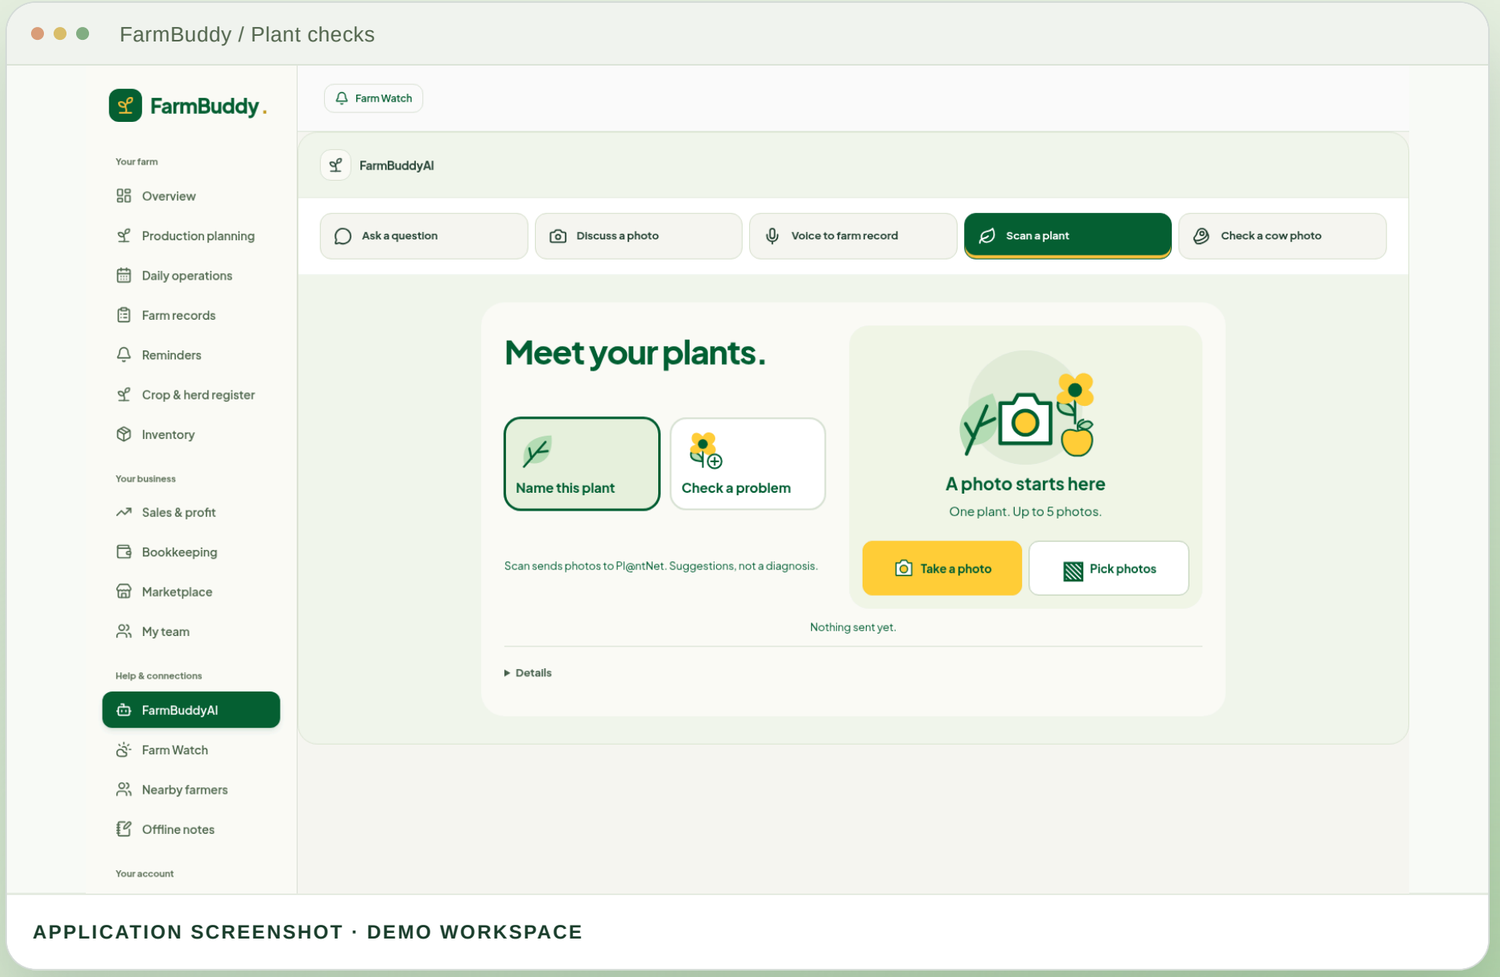

A CLOSER LOOK AT YOUR CROPS

Check your plants. Spot possible disease.

Identify a plant. Check a crop photo. Compare possible matches.

Plant identification **Crop disease checks**

Possible matches, not a diagnosis.
